JOHN ELIAS BALDACCI  
GOVERNOR

DAVID A. COLE  
COMMISSIONER

July 20, 2010  
Subject: **Springfield**  
State Project No: 017544.00  
**Amendment No. 1**

Dear Sir/Ms:

The following questions have been received:

**Question:** Reference page 9 of the plans. There is a picture of 2 items in the inlet ditch called Stream Diversion. What are these items and where do you purchase them? Also, how are they installed?

**Response:** These are Jersey Barriers. As part of the environmental review it is requested the stream inlet have a diversion placed in the channel to slow the flow of water. Jersey Barriers notched at the top have been used previously. Should the contractor have another idea on how to accomplish this diversion they need to obtain permission from the environmental coordinator of the project.

**Question:** Page 8 of the plans, Station 175+00, what does the dark line about 12" or 15" thick mean?

**Response:** This line indicates the full depth replacement of the gravel base and pavement layers directly over the 72" pipe replacement. See the typical on page 3 of 13.

Consider this information prior to submitting your bid on July 21, 2010.

Sincerely,

Scott Bickford  
Contracts & Specifications Engineer
